Preferred Stock

Trade PRICE LIST

NOTICE: In our opinion there will be a real activity in spring planting. Not in several seasons have prospects looked so good to us. And we are not forcing this optimism — conditions ARE improving certainly and rapidly. We offer you a very complete assortment of good stock that has been taken care of, including many specialties that will attract sales.

Shipments at Customer's Risk — Boxing Additional Usual Terms and Conditions of Sale

Jackson & Perkins Company
Wholesale Only
Newark, New York.

Distributors and Hybridizers of New Roses and Plant Specialties

JACKSON & PERKINS COMPANY

Maintains a complete research department

There is no question about it—we are facing a "New Era" in the nursery business. In this new era the old "trial and error" method of doing business must go. In its place we must substitute facts and research.

Jackson and Perkins realize this and give their dealers the advantage of their thorough Research Department. The business of this Research Department is to determine the roses which will give the purchaser the best value, knowing that such roses will bring the greatest profit to those who sell them. This research work is not confined to the United States alone. In fact, Jackson and Perkins have a working agreement with thirty-four rose growers in Europe, Australia, etc., thus bringing to their organization most of the promising material the world affords.

Only tested kinds offered to the trade

Every variety offered is tested in our Research Gardens to determine whether or not they will prove successful commercially. Dealers can sell Jackson and Perkins' roses with the assurance that everything possible has been done in advance to insure their success from every standpoint.

Dealers desiring assistance in planning their catalogs and price lists can secure special descriptions of novelties for their exclusive use.

JACKSON & PERKINS COMPANY

WHOLESALE ONLY

Newark, New York

J. & P. ROSE SPECIALTIES

SPECIAL NOTICE

While we sell at wholesale exclusively and price our stock accordingly we realize there is a demand occasionally for less than 5 of a kind. Therefore on PATENTED ROSES only (Nationally advertised) we will be glad to fill orders for SINGLES at the ten rates. This does not apply to other novelties or regular varieties.

1. Protected by Plant Patents.

The following provisions apply to all patented and trade-marked plants we sell. Each of the plants so indicated is a patented variety under the laws of the United States and any asexual reproduction or distribution, by sale, gift or otherwise of scions, buds or cuttings for such reproduction, without license from the patent owners, constitutes an infringement of these patents. Any unauthorized reproduction, sale or other distribution of reproducing propagating material of these plants, prohibited by the patent under these names and Trade Marks, or any other name or names, will subject the reproducer, seller or distributor thereof to prosecution for infringement under the United States Patent laws. Persons or firms, not licensed by patent owners to sell these patented plants at wholesale are limited to resale at retail only.

2. To be Nationally Advertised in Garden and Home Magazines reaching over 12,000,000 Rose Lovers.

3. Uniform Prices.

WHOLESALE PRICES are uniform everywhere.

RETAIL PRICES. Each purchaser is hereby notified that all patented plants in this list are offered for resale at retail only and not for re-wholesale. It is our established policy that each purchaser shall not list or sell them at less than the per each or per dozen retail prices as established for the current season or include them in any group, collection or combination offers at less than the total of the unit prices of each variety in the group as listed in his price list; also that these plants are not to be featured as a premium in any instance. Each purchaser is notified that failure to comply with this policy will result in discontinuance of the supply. The seasons retail selling prices are contained in the listing below.

NATIONAL ADVERTISING WILL CREATE DEMAND AND INCREASE YOUR SALES

AMELIA EARHART—H.T. Plant Patent No. 63. (Retails \$1.50 each, \$15 per doz.)	Per 10	Per 100	Per 1000
Truly a "magnum" Pernet, large, yellow, vigorous. Large ovoid bud, cream with blushes; flowers very full graduating from a deep yellow center to an outer collarette of large cream petals with a blush overtone, extremely fragrant, strong grower, free bloomer, leathery dark green foliage. A worth while addition		75 00	650 00
BLAZE—ClPlant Patent No. 10. (Retails \$1.50 each, \$15 per doz.) Acclaimed by the Nation—the only hardy everblooming scarlet climber. It has every element to insure its success, for Blaze combines the vigor, beauty, and hardiness of Paul's Scarlet Climber with the everblooming qualities of a favorite everblooming rose		75 00	600 00

	_ •		
J. & P. ROSU SPECIALTIES—Continu	l ed Per 10	Per 100	Per 1000
BETTER TIMES-H.T. Plant Patent No. 23. (Retails \$1.50 each;			
\$15 per doz.) The brilliant cerise flowers are large, double, and delicately fragrant. Being produced on long strong stems, they are excellent for cutting; foliage is leathery, dark green, a very free bloomer. Its success is indication of the name. (Late fall or spring only)	10 00	75 00	650 00
COUNTESS VANDAL—H.T. Plant Patent No. 38. (Retails \$1 each, \$10 per doz.) The sensation of the shows. The most popular variety at the Cen-			
tury of Progress. A lovely coppery pink and gold, extra long pointed buds. The "Queen of the Garden"	5 50	45 00	400 00
GOVERNOR ALFRED E. SMITH—H.T. Plant Patent No. 62. Retails \$1.50 each, \$15 per doz.) First class bedding variety. Artistic bud evolving into a large,			
rounded Rose, shaped like a "bomb" peony. A mixture of salmon and gold with a deeper tone on the outside of the petals. Sweet fragrance. A free bloomer and an unusually hardy plant. An easy Rose to grow		7 5 00	650 00
GOLDEN CLIMBER—Plant Patent No. 28. (Retails \$2 each, \$20 per doz.) (Mrs. Arthur Curtiss James). The Hybrid Tea flowered climber. Will repeat the success of Blaze. The most interesting and unusual feature is that its extreme hardiness is combined with blooms of Hybrid Tea type and quality; long lasting and most always solitary on stems often eighteen inches or longer. It is very hardy, being able to withstand sub-zero temperatures. The handsome			
glossy green foliage, green wood and red thorns are very orna- mental		100 00	850 00
MARY HART—H.T. Plant Patent No. 8. (Retails \$1 each, \$10 per doz.) A striking red sport of Talisman. The bud is maroon red, opening to well formed blossoms of deep velvety blood-red with an overglow of amber. Unlike most red roses, Mary Hart does not wilt or dry out when cut, but opens perfectly		45 00	400 00
NIGRETTE—H.T. Plant Patent No. 87. (Retails \$2 each, \$20 per doz.) 'The Black Rose of Sangerhausen." The cup shaped flowers are intensely deep maroon with blackish velvet sheen and are deliciously fragrant. It is the darkest of roses,—appearing almost black from a little distance. The petals do not burn in the sun. The plant is continuously in bloom, spending most of its energy in forming blossoms (originator's description). The sensation of the European rose world is now available for the first time in			
this country	12 50	100 00	850 00
SOUVENIR—H.T. Plant Patent No. 25. (Retails \$1 each, \$10 per doz.) The Golden Talisman. One of the loveliest of roses. Its bloom is a rich deep golden yellow, and it is a prolific producer of fragrant flowers for cutting. It is a superb garden variety with all the de-			
sirable qualities of the popular Talisman	5 50	45 00	400 00
TOKEN—H.T. Plant Patent No. 95. (Retails \$1.50 each, \$15 per doz.) Large Ophelia shaped bud. The double flowers are a single toned sun ripened apricot, a unique color. It is a free bloomer and has an upright growth in the garden. The flowers are very lasting and are pleasing at all stages. The glossy foliage is disease-resistant		75 00	650 00
	•	.0.00	
PRINCESS VAN ORANGE—Cl. Plant Patent No. 106. (Retails \$2 each, \$20 per doz.) Sensational climbing sport of Gloria Mundi. It has strong growth and rich green foliage. The branches are literally covered with	L		
masses of blazing Gloria Mundi red flowers in polyanthalike trusses. The most talked of European climbing novelty in many years		100 00	850 00

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

Other Novelties and Specialties

Including many kinds which are exclusively J. & P. varieties.

	Per 10	Per 100
ALLEN'S FRAGRANT PILLAR. Cl. Everblooming Climber. (Allen 1930). Large, full, fragrant, satiny pink blooms. Blooms throughout the season. Hardy. We consider it an improved Staechelin. Does not mildew	7 50	60 00
ALEZANE. H.T. (Plant Patent No. 116). (Pahissa 1934). (Retails \$2 each, \$20 per doz.) Bud urn shaped large reddish brown flowers cupped opening to correl, unfurling from sorrel to rich apricot and reverse of petals sorrel striped with yellow veins. Petals not affected by hot or wet weather. Growth very vigorous, upright branching dark green foliage. An extremely interesting and striking novelty which has attracted much attention wherever shown.	12 50	100 00
AMBASSADOR. HT. (Premier Rose Garden 1930). Patent No. 11. (Retails \$1 each, \$10 per doz.) Talisman type. Buds large, long pointed; flowers large, very double bronze salmon; fragrant; profuse bloomer\$400 per 1000	5 50	45 00
ALLAN CHANDLER. Cl. Vivid scarlet clusters of three to four nearly single blooms. Makes a fine everblooming pillar rose	7 50	60 00
AMI F. MAYERY. HT. (Mme. Denoyel 1934). Long pointed vermilion-red buds; flowers extra large, semi-double cupped, slightly fragrant, pure brilliant poppy-red and yellow undertone on stiff stems, very vigorous; continuous bloomer; striking	10 00	75 00
CAMEO. Poly. (DeRuiter 1932). A new and distinct color fully described by the name—shell-pink and salmon, with a glow of gold. Large sprays in continuous succession. A real acquisition	6 00	50 00
CARMELITA. HT. Plant Patent No. 91. (F. Spanbauer 1933). (Retails \$2 each, \$20 per doz.) .Large ovoid bud of E. G. Hill color: flowers vivid red, color same on both sides of petals without variations. A vigorous grower with abundant large leathery dark green foliage. A new American Rose of great promise. We recommend it highly\$850 per 1000	12 50	100 00
EDITH KRAUSE. HT. (Max Krause 1931). Probably the most beautiful white Fose in existence. Very large white bud with a greenish tint, opening to a majestic, perfumed bloom of pure white. Long strong stems for cutting. Unusually hardy\$400 per 1000.	5 50	45 00
ESSENCE. HT. (B. R. Cant 1931). The long-sought double Etoile de Hollande. Bloom deep crimson, full of "Essence" of Rose. Novelty of great future. Vigorous grower	6 00	50 00
shadings, new feature in red roses. Quite fragrant, handsome cut flower. Vigorous healthy plant. Considered abroad as the best red rose of the year LOUISE KRAUSE. HT. (Max Krause 1931). A glistening yellow with orange tints; large, full, and fragrant. We consider it one of the best acquisitions of recent years. Long stems for cutting. Handsome, strong foliage	12 50	100 00
MARGARET ANNE BAXTER. HT. (Smith 1927). Long-pointed bud; flower large,	7 50	60 00
full, sweetly scented, with a salmon-blush center. Robust plant MAX KRAUSE. HT. (Max Krause 1931). Probably the most yellow Rose of the year for outdoor use—a gold that stays gold. Long bud and cup formed	5 00	40 00
bloom of great substance freely borne on a long stem. Foliage leathery and unusually resistant to Rose troubles	10 00	75 00
memory." Highest award in London for scented roses	10 00	75 00
orange-salmon, with a suffusion of gold. Vigorous, healthy plant. One of the best of the new tribes	5 00	40 00
to a pleasing magenta-pink. Blooms steadily	10 00	75 00
blooming Dr. W. VanFleet. Vigorous free blooming\$650 per 1000 OTTO KRAUSS. H.T. (C. Weigand 1931). New. (Retails \$1.50 each, \$15 per doz.) Buds are rich copper, opening to a large double bloom of orange-copper light-	10 00	75 00
ened with salmon and gold at the base. An everblooming H. P. with every desirable H. T. habit; it has a definite place in every garden\$650 per 1000	10 00	75 00

We cannot undertake to supply long and much assorted lists of stock calling for only small quantities of each kind, save at an advance above our printed rates according to quantity.

OTHER NOVELTIES AND SPECIALTIES—Continued

	Per	10	Per 1	100
PEONY OF FRAGRANCE. H.P. (Pahissa 1933). New type of everblooming H. P., always in bloom. Large peony-like pink flowers, very fragrant	10	00	75	00
PERMANENT WAVE. Poly Hyb. Plant Patent No. 107. (M. Leenders 1933). (Retails \$1.50 each, \$15 per doz). The name fits the case. Petals are fluted or waved, permanently from the bud stage to the finish. Blooms rather large for the type, in great clusters. Rosy pink with cerise edges. Handsome				
plants, may be grown tall enough for a low hedge\$650 per 1000	10	00	75	00
PINK GRUSS AN AACHEN. Poly. New. (Kluis & Koning 1929). Deep salmon rose-colored sport of Gruss an Aachen. Same free blooming habit but with				
somewhat fuller flowers		00	45	00
PRINCE FELIX (de Luxembourg). HT. (Ketten 1931). Well formed bloom rather large, of brilliant scarlet red. Tall healthy plant of Radiance type. We are				
very much enthused over it. Has stood below zero weather without injury	5	00	45	00
ROCHESTER. H. Tea. (J. H. Nicolas 1934). New. (Retails \$1.50 each, \$15 per doz). Seedling of Echo and Rev. F. Page Roberts. A lovely constant flowering bedder of the Roberts form of bud and flower with the Echo type of growth, freedom of bloom, and hardiness. The color of the bud is like Roberts with more pronounced carmine markings on the reverse of petals, and more blush in the open flower. Foliage heavy and disease-resistant; growth vigorous. Always in bloom, it is sure to be a great garden favorite

pink flowers, fragrant, robust hardy plant, free bloomer		UU	73	00
for the garden		50	60	00

Horvath Setigera Strain

M. H. Horvath of Mentor, Ohio, has worked for 30 years to evolve a strain of hardy climbers that would stand severe winters when even Wichuraiana hybrids are injured. After experimenting with several species, the one proving the most resistant has been our own native R. Setigera (Prairie Rose). Jackson & Perkins are the distributors of this new strain and are here offering the first variety to be put in commerce. Others will come from year to year. To distinguish this truly American Strain, a special set of names has been selected from Pirate Legends, and the Horvath series will be known as "Treasure Island Roses."

Hardy Perennial Plants

Our Perennials are transplanted, clean, well rooted, individual plants, not coarse woody divisions.

We have our usual large stocks and can readily handle all orders, large and small. We pride ourselves on our packing, using specially ventilated boxes and clean fresh packing material.

We are developing carefully our selected J. P. V. superior strains, growing from a few specimens, only sufficient seed for our own needs, assuring strains on which we can absolutely depend for high quality and uniformity.

We are also offering many of the newest and best European and American novelties which have proven themselves in our trial gardens.

> Varieties marked with an (r) are for Rock Gardens. Varieties marked with a (c) are excellent for cut flowers. All Potted Plants Are Available for March Delivery

	500		the Delphinium world has reached for clear white flowers. We are offering here selected plants of White Delphiniums which we think are very fine. They are vigorous, tall growers and in a becacentuate beautifully the blue shades. They can readily be used in the old Madonna Lily combinations. These plants are the results of much patient hybridizing. We prize them highly

	1000	0	healthy Gold Medal plants. 4-5 ft. 1 yr\$ 50 per 1000		
	1000	C	Hybrids, Extra Gold Medal. 2-yr\$ 60 per 1000.  J. P. GIANT FLOWERED HYBRIDS. We grow many hundred thousand Delphiniums and in that number, of course, have some very highly prized beds of plants. These groups are ruthlessly rogued down to a very small number of plants which approach our ideals. The vigor of our strains still predominates, plus the largeness of bloom, doubleness and interesting shadings of color from Blue and Purples thru Mauves to near Pinks. There are also a few whites in	- / 1 f 1 1	8 00
			this assortment. Doubles and semi-doubles are in the majority with a small percentage of outstanding singles. The individua pips are all very large and are borne on long, well-filled spikes. 5 ft	1	ach

# PERENNIAL PHLOX

### r Phlox Subulata

#### Moss or Mountain Pinks

An early spring-flowering type with beautiful moss-like evergreen foliage, which during the months of April and May is hidden under the masses of bloom. Fine plant for the rockery, border, and invaluable for covering graves or where a carpet of flowers is wanted. Because of its earliness to flower, it needs to be in every rock garden.

### Phlox Decussata

#### Available in 2 yr. field grown, or pot plants (March Delivery) as marked

This perennial plant is one of the oldest types in gardens. Yet to one unacquainted with the remarkable advances in its betterment in recent years, it is now close to first place in popularity for long period, mass flowering, easy culture, and extreme hardiness in American Horticultural lines. Sharper and more artistic colorings, healthier growths, freedom of bloom, larger flowers and better formed clusters, stiff erect stems, and graduations from tall, medium to rather dwarf (admirably suited to rockeries background work) growth, are vital factors. Blooming period July to October.

1000	Athis. Deep clear salmon-pink. 2½ ft	1 00	9 00
2000	Bridesmaid. White with large crimson eye. 2½-3 ft		9 00
500	*CAROLINE VAN DENBURG. New. Striking parma violet blue large in-		
	dividual flowers with enormous trusses. Nearest to blue in phloxes.		
	Very free flowering. 2½-3 ft. 2-in. pots	1 20	10 00
500	*Count Zeppelin. Very large white with a deep crimson eye. Strong		
	grower. Improved Europa. Best of the calico type; no fading or suf-		
	fusion of colors. 2-in. pots. (March Delivery)	1 00	9 00

## New Pyramidal Barberry

(Berberis Thunbergii Pluriflora Erecta) Plant Patent No. 110

A sensational new form of Barberry, perfectly upright and pyramidal with very dense growth and heavy foliage evenly distributed from the ground up; berries very similar in color, size and habit to Thunbergs Barberry. Can be grown like boxwood into symetrical specimen. Very desirable for compact hedges.

## FRUIT DEPARTMENT

### BEARING SIZE FRUITS

These trees were especially grown for specimens—planted far apart in the rows, and root-pruned last year. They were produced to take care of an increasing demand for EARLY-TO-BEAR FRUIT TREES.

### **CHERRIES**

\$9 00 per 10; \$75 00 per 100

Bing. Sweet, dark red late. Napolean Bigarreau. S. Bright red.

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

## Terms and Conditions of Sale

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes, and in accordance with provisions of statement of existing Federal laws appearing on title page.

THE PRICES in this list are based upon present market conditions and are subject to change without notice. These are wholesale prices and apply only to wholesale quantities; in no case will we fill retail orders even from nurserymen. All orders should be made up for 10's or multiples of 10.

TERMS. 60 days net, 1% discount 30 days, 2% discount 10 days, from date of shipment. Interest at 6% per annum to be paid after maturity. These terms are offered to those of established credit. Cash, security, or satisfactory references are required from unknown parties.

SHIPPING. Customers are requested to give definite instructions for shipping. In the absence of special instructions we will use our own judgment, but with the distinct understanding that it is without responsibility on our part. All shipments travel at the risk and cost of the purchaser. We have the New York Central, the West Shore, and the Pennsylvania Railroads, enabling us to ship in any direction over trunk lines.

**BOXES** will be charged for at the rates noted below.

10 ft. 30 in. x 30 in\$4 25	10 ft. 20 in. x 20 in
10 ft. 28 in. x 28 in 4 00	10 ft. 18 in. x 18 in 2 75
	10 ft. 14 in. x 16 in
	10 ft. 12 in. x 14 in
10 ft. 22 in. x 22 in 2 75	

Add 50 cents on all sizes of 12-foot boxes; decrease in same proportion for shorter boxes.

BALES will be charged at actual cost of the material. We make no charge for packing or for delivery to the railroad station.

CLAIMS for any cause must be made promptly on receipt of goods. Any stock that is not exactly as represented must be reported promptly and on authority should be returned to us immediately. We will cheerfully and without question credit back the unsatisfactory plants, or send others; but we will not entertain claims made after goods have been once accepted, or when report is not made within ten days after arrival of the stock.

LIMITED LIABILITY AND NON-WARRANTY. We express or imply no warranty as to productiveness or life of the stock we sell. It is mutually agreed that our liability for untrueness to name is confined to free replacement or refund of purchase price plus interest, and should the stock prove to be untrue to the name under which it is sold, it is further agreed that such adjustment shall be the liquidated damages and all the damages to which the purchaser shall be entitled by reason of the premises.

**INSPECTION AND FUMIGATION.** Certificate of Inspection will be furnished with every shipment and, when required, stock will be fumigated.

SPECIAL NOTICE. Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers. We use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them.

LOCATION. We are located 30 miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.

Newark, New York, January 17, 1935
